

Village Green Playground upgrade

The Village Green Playground is scheduled to be upgraded as part of Council's 2019-20 Capital Works Program.

The playground is recommended for expansion in the Maribyrnong Playground Improvement Plan (2016-26) given it is the only playground in Waterford Green.

Council has developed a draft plan (see overleaf) that increases the variety of play elements with improved accessibility and adds fitness equipment to the park.

Council is seeking feedback on the draft plan to assist with the final design for the space and whether the ping pong table should be replaced with other elements.

To provide feedback please respond online at www.yourcityyourvoice.com.au

Feedback is due by Monday 25 November 2019
