

Clarke Street Improvements

Clarke Street Pop Up Park is a temporary trial of a Pop Up Park for the Barkly Village. The trial is in response to previous community consultation where the community has requested a greening of Barkly Village and an open space for Barkly Village.

The trial is proposed for 18 to 24 months, the use of the space and community benefit will be analysed at the end of the period. A permanent solution may be considered at that point. The pop up park trial will be fully removable and the road closure is temporary in nature.
