1. Legislative Requirements

This section describes how the Financial Plan links to the achievement of the Community Vision and the Council Plan within the Integrated Strategic Planning & Reporting framework. This framework guides the Council in identifying community needs and aspirations over the long term (Community Vision), medium term (Council Plan) and short term (Annual Budget) and then holding itself accountable (Annual Report).

The following diagram provides an overview of the core legislated elements of an integrated strategic planning and reporting framework and outcomes.

The following figure demonstrates how each element might inform or be informed by other parts of the integrated framework.

1.1. Strategic Planning Principles

The Financial Plan provides a 10 year financially sustainable projection regarding how the actions of the Council Plan may be funded to achieve the Community Vision. The Financial Plan is developed in the context of the following strategic planning principles:

- Council has an integrated approach to planning, monitoring and performance reporting.
- Council financial plan addresses the Community Vision by funding the aspirations of the Council Plan. The Council Plan aspirations and actions are formulated in the context of the Community Vision.
- The Financial Plan statements articulate the 10-year financial resources necessary to implement the goals and aspirations of the Council Plan to achieve the Community Vision.
- Council's strategic planning principles identify and address the risks to effective implementation of the Financial Plan. The financial risks are included at section 1.2.2 below.
- The Financial Plan provides for the strategic planning principles of progress monitoring of progress and reviews to identify and adapt to changing circumstances.

1.2. Financial Management Principles

The Financial Plan demonstrates the following financial management principles:

- 1.2.1 Revenue, expenses, assets, liabilities, investments and financial transactions are managed in accordance with Council's financial policies and strategic plans.
- 1.2.2 Management of the following financial risks:
 - a) the financial viability of the Council (refer to section 2.1 Financial Policy Statements).
 - b) the management of current and future liabilities of the Council. The estimated 10 year-liabilities are disclosed in section 3.2 Balance Sheet projections.
- 1.2.3 Financial policies and strategic plans are designed to provide financial stability and predictability to the community.
- 1.2.4 Council maintains accounts and records that explain its financial operations and financial position (refer section 3 Financial Statements)

1.3. Engagement Principles

Under Section 91 of *The Local Government Act 2020* Council must develop, adopt and keep in force a Financial Plan in accordance with its deliberative engagement practices as outlined in its Engagement Policy.

Phase 1: Priority Setting

During this phase we want to understand the community spending, revenue, and capital works priorities generally.

Phase 2: Have We Got It Right

This is where the draft Financial Plan, informed by community thinking, is provided back to the community with an explanation as to how their input has been considered and request for formal feedback on the document for consideration prior to adoption.

Phase 3: Close the Loop

This is where we share the final Financial Plan including how community feedback is taken into account and ensure any enquiries have been closed out.

Deliberative Engagement approach

Deliberative engagement is a form of engagement involving the sharing of information and in-depth conversations with a group of residents, representative of the demographics of the community, to consider their thoughts and opinions, and come to a consensus outcome (which may include recommendations) – to ensure community voices are heard and listened to.

In relation the 10-year Financial Plan Council has already hosted two representative focus groups and a workshop with the community panel as part of the development of the Council Plan 2025.

Along with other engagement activities, we also provided a budget assessment tool for ratepayers to provide input into 'balancing the books' which we are again rolling out as part of the Financial Plan engagement to support a deliberative conversation.

In addition, Council will be working with our Maribyrnong Matters panel – a group of residents who've nominated to come on board and support the community in working with Council to provide feedback on projects in their community during engagement specifically on the Financial Plan.

This will involve sharing information during the first phase of community engagement to inform them of the capital works and revenue and spending program and funding assumptions, and invite them to provide initial feedback on their priorities in these areas

Council will also host a dedicated working group discussion towards the end of August – during the final phase – where group members will review a draft 10-year Long Term Financial Plan and take part in a robust discussion hosted by an external facilitator to provide further input. This will involve seeking a consensus on key questions that have arisen during wider community engagement.

This deliberative approach will continue post adoption of the Financial Plan with further conversations and focus groups/workshops to feed into development and recommendations for the Annual Budget 2022-26 on an ongoing basis starting around November 2022.

1.4. Service Performance Principles

Council services are designed to target to community needs and provide value for money outcomes for residents. The service performance principles are listed below:

- a) Services are provided in an equitable manner and are responsive to the diverse needs of the community. The Council Plan is designed to identify the key services and projects to be delivered to the community. The Financial Plan provides the mechanism to demonstrate how the service aspirations within the Council Plan may be funded.
- b) Services are accessible to the relevant users within the community.
- c) Council provides quality services that provide value for money to the community. The Local Government Performance Reporting Framework (LGPRF) is designed to communicate council's performance regarding the provision of quality and efficient services.
- d) Council is developing a performance monitoring framework to continuously improve its service delivery standards.
- e) Council is developing a service delivery framework that considers and responds to community feedback and complaints regards service provision.

1.5. Asset Plan Integration

Integration to the Asset Plan is a key principle of the Council's strategic financial planning principles. The purpose of this integration is designed to ensure that future funding is allocated in a manner that supports service delivery in terms of the plans and the effective management of Council's assets into the future.

The Asset Plan identifies the operational and strategic practices which will ensure that Council manages assets across their life cycle in a financially sustainable manner. The Asset Plan, and associated asset management policies, provide council with a sound base to understand the risk associated with managing its assets for the community's benefit.

The Asset Plan is designed to inform the 10-year Financial Plan by identifying the amount of capital renewal, backlog and maintenance funding that is required over the life of each asset category. The level of funding will incorporate knowledge of asset condition, the risk assessment issues as well as the impact of reviewing and setting intervention and service levels for each asset class.

In addition to identifying the operational and strategic practices that ensure that Council manages assets across their life cycle in a financially sustainable manner, the Asset Plan quantifies the asset portfolio and the financial implications of those practices. Together the Financial Plan and Asset Plan seek to balance projected investment requirements against projected budgets.

The capital expenditure assumptions (including new assets, renewals, disposals, depreciation etc.) are an input item to the model. These are based on the Council's City Infrastructure Plan. These assumptions are underpinned by key financial objectives including maintenance of existing service levels, 28 per cent of Rates and municipal charge be dedicated to capital and asset improvements.

2. Financial Plan Context

This section describes the context and external / internal environment and consideration in determining the 10-year financial projections and assumptions.

Our Challenges and Opportunities

While many of the challenges we face are similar to those of other Victorian councils, we are presented with some unique ones. The following are some of our most significant challenges and opportunities.

Tackling Climate Change and Its Impact on Our Environment, Economy and People

Climate change is one of the greatest challenges of our time. We already see its effects. There are more warm spells, frequent and intense downpours and longer fire seasons. It's impacting our biodiversity, water supplies, energy demand, and our health (particularly that of our more vulnerable community members). As outlined in our Climate Emergency Strategy 2021-25 and Action Plan and in Zero Waste Strategy 2030, we recognise that every action our community and Council takes influences our environment. We want to make that influence as positive as possible. How we adapt and mitigate climate change impacts will require a holistic approach, from how we drive sustainable development to how we grow our local industries.

COVID-19 Pandemic and Economic Recovery

The global COVID-19 pandemic has impacted how we live, work, access important services and socially connect. The impacts and changes have been rapid. The effects will be long lasting.

The pandemic's economic impacts are some of the most significant, along with mental health impacts from isolation and uncertainty. We will need creative solutions to help businesses recover, manage our financial resources, and support individuals to get back on their feet.

We can learn from the pandemic. Through the pandemic, having access to everything you need locally become more important than ever. We want to continue supporting this and strengthening our financial and community resilience for the next challenge or natural disaster.

Many small and medium businesses across a diverse range of industry sectors are vulnerable as they typically do not have the cash reserves to prop up declining revenues. Whilst the current crisis continues to evolve, some have been forced to reduce staff and many face the risk of closure. This reduction in the payment of wages will have flow on impacts to households and local communities. Major business and associated industries are being impacted throughout the supply chain.

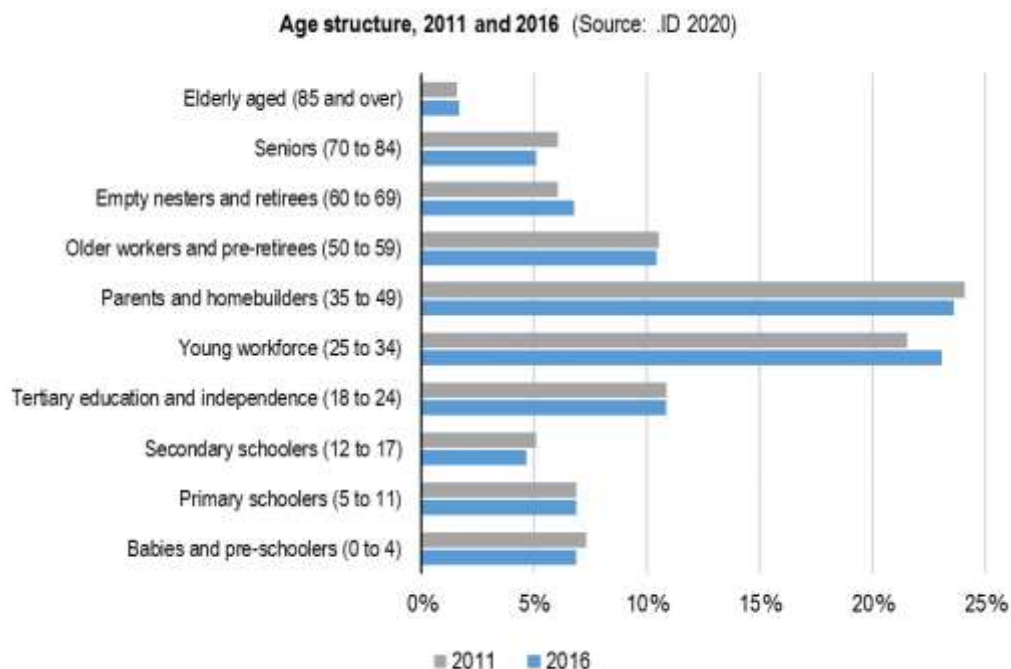

Meeting the Changing Needs and Expectations of a Growing and Diverse Community

The City of Maribyrnong is changing and growing. This section summarises the current status and the changes that are expected to occur over the next 10 years and beyond.

Population- Age Groups

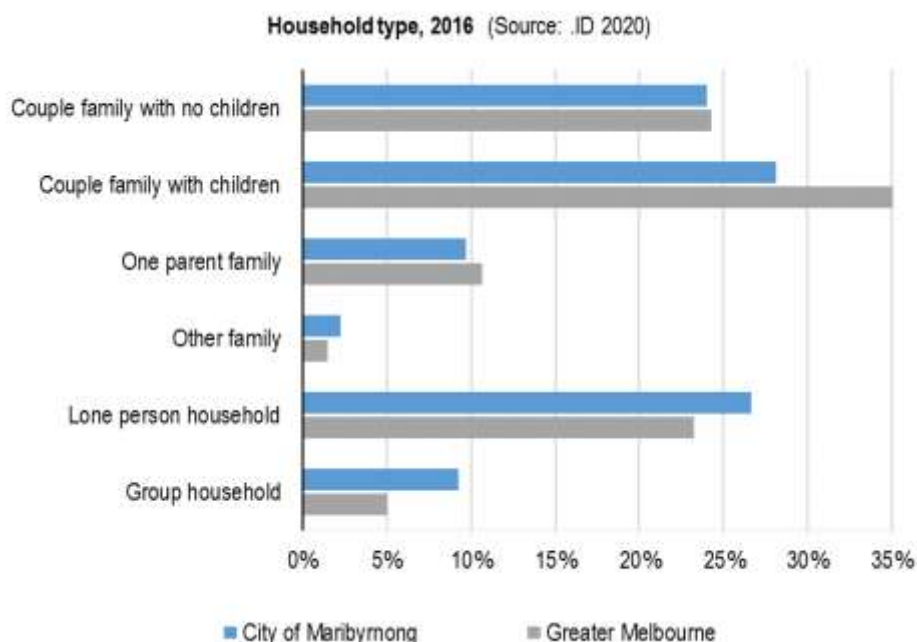

The estimated resident population of the City of Maribyrnong was 94,982 people in 2020 (according to the Australia Bureau of Statistics). This was a significant increase of 10,200 people over the five year period to 2020 (representing a strong average annual growth rate of 2.3%).

The age structure of the population in 2011 and 2016 is shown in the chart below. The chart shows an increase in the proportion of residents who were young adults (18-24 years), young workers (25-34 years), empty nesters and retirees (60-69 years), and the elderly aged (85 years and over).

Household Structure

The City had lower proportions of families with children and higher proportions of lone person and group households compared to Greater Melbourne in 2016. The household structure of the population is shown in the chart below.

Employment and Jobs

The City's gross regional product was estimated at around \$6 billion in the year ended June 2020. Gross regional product is an estimate of the wealth generated in a region. In the City of Maribyrnong, gross regional product has been variable but growing in the last decade (as shown in the chart below).

There were an estimated 45,900 jobs and 9,800 active businesses (registered for GST) based in the City of Maribyrnong in 2020. Key employment industries were health care and social assistance; retail trade; and education and training, while the key industries by number of businesses were transport, postal and warehousing businesses; professional, scientific and technical services businesses; and construction businesses.

The City's economy is in transition from an economy focused on production to one focused on services. The number of manufacturing jobs has reduced in response to changes in technology and competition from lower cost producers overseas. The proportion of service sector jobs has been increasing, with demand growing for a range of services. Employment in many residential related industries, such as retail trade; accommodation and food services; and health, are growing. Employment in knowledge intensive services are also increasing, such as those in the professional services, science and creative industries. As this transition continues, manufacturers in the City of Maribyrnong are adapting to these new conditions with a shift to high value-adding, knowledge-intensive manufacturing. The transition of the local economy is illustrated in the employment profile chart shown below.

The chart shows that the health care and social assistance industry was the largest employer in 2019/2020, followed closely by the retail trade industry. Employment in these industries is growing, with an additional 3,050 jobs created between 2011 and 2020. Over the same period, the manufacturing industry lost 1,100 jobs and declined to 8.7% of total employment (a slightly lower proportion compared to Victoria at 9.0%).

Future Growth Forecasts - Population

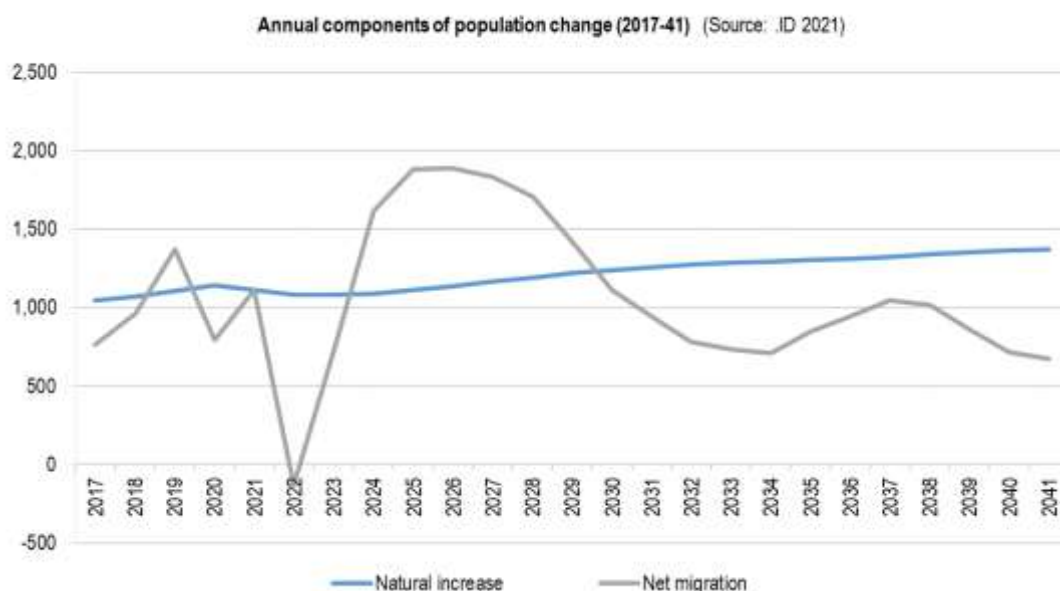

The City's population at June 2021 was forecast to be around 97,500 residents, and is expected to grow by around 48% to 144,100 residents at 2041. This is a forecast increase of around 46,700 residents over this 20 year period, representing a moderate average annual growth rate of 2.0%. These forecasts were developed in January 2021 and were based on the growth and development trends and expected development at that time. The forecasts attempted to account for the early population trends associated with the COVID-19 pandemic, however these had a high degree of uncertainty at the time.

Forecast population growth is concentrated in Footscray. Footscray is expected to grow by almost 18,000 residents from 2021 to 2041 (an 87% increase and representing a strong average annual growth rate of 3.2%).

Forecast population growth by suburb is shown in the chart below from 2021 to 2041.

The forecast increase in population is made up of two components – natural increase in population (which is the net change in population based on births and deaths of residents), and net migration (which is the net change in population based on residents moving into and out of the municipality). Net migration is expected to decrease during the pandemic but recover quickly in 2022/23. Natural increase is also expected to be slightly lower during the pandemic period but continues a steady increase over time.

The ageing of the City of Maribyrnong population is forecast to continue with large increases in the proportion of older residents. The number of residents 65 years of age and older is expected to increase from around 9,500 residents in 2021 to around 18,200 residents in 2041, an increase of around 8,600 residents. However, the numbers of residents in all age groups increase, and there is expected to be a strong increase in the number of young adults as well.

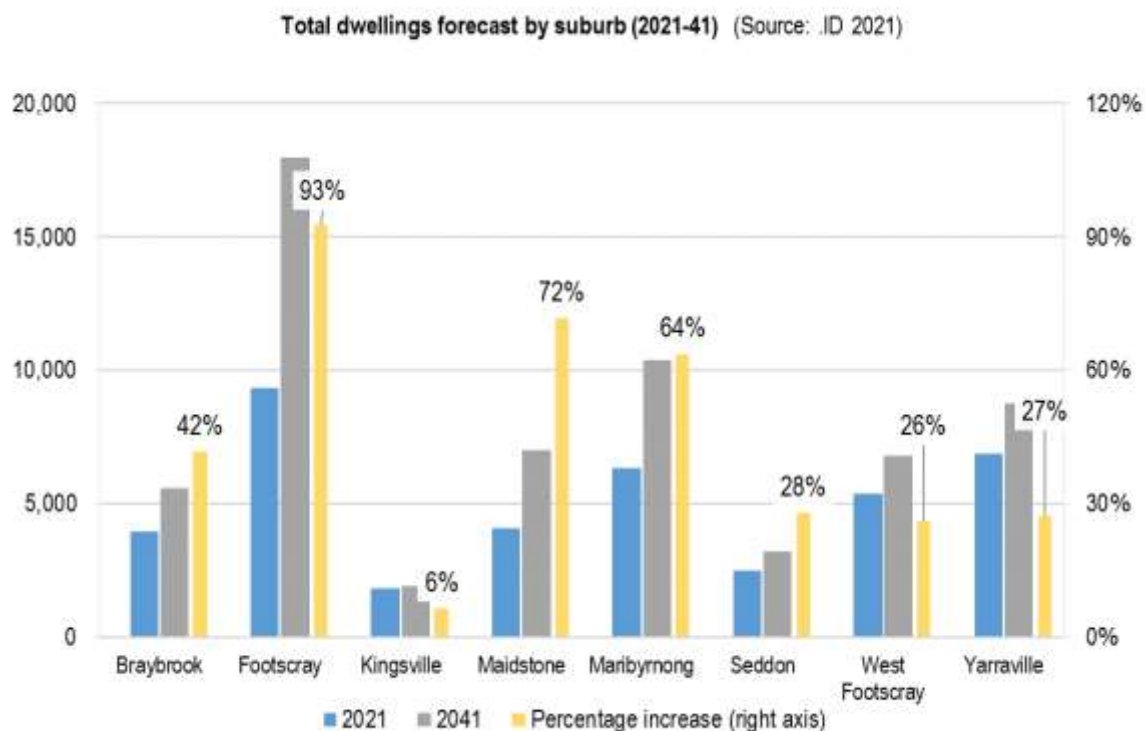

The number of residents aged 20 to 34 years is expected to increase from around 30,400 residents to 44,000 residents, an increase of around 13,700 residents. The chart below shows the projected future population by age group.

Future Growth Forecasts - Dwellings

The total number of occupied and unoccupied dwellings in the City of Maribyrnong at June 2021 was forecast to be around 40,300 dwellings, and was expected to grow by around 53% to around 61,700 dwellings at 2041. This is a forecast increase of around 21,400 dwellings over this 20 year period, representing an average annual growth rate of 2.1%.

The forecast growth in dwellings is concentrated in Footscray. An additional 8,700 dwellings are expected in Footscray between 2021 and 2041 (a 93% increase and representing a strong average annual growth rate of 3.3%). Forecast dwellings by suburb are shown in the chart below from 2021 to 2041.

Developing a Prosperous Local Economy That Is the Right Fit for Maribyrnong City Council

Strong growth is forecast in Footscray and Highpoint activity centres. These areas will continue to change quite significantly to include higher density development. The Braybrook Regeneration project will result in higher population growth in Braybrook than would otherwise be the case. Large development areas such as Defence Site Maribyrnong will add significant additional population over the longer term. Infill development will increase development activity and population throughout the suburbs of the City.

Our Wellbeing Commitment

Maribyrnong City Council is committed to promoting and protecting the wellbeing of our community across all life stages. We will achieve this through working to create and improve the physical, social, natural, cultural and economic environments that promote health and wellbeing. Council is committed to social justice and equity for all and has a vital role to play as leader, partner, advocate and planner in developing and implementing strategies to protect and promote health, now and into the future.

Council is required under the Public Health and Wellbeing Act 2008 to produce a Municipal Public Health and Wellbeing Plan every four years to identify and respond to community health and wellbeing needs. Council has chosen for the fourth time to meet this requirement through including health and wellbeing matters in the Council Plan. In doing so, Council elevates its commitment to health and wellbeing and acknowledges the importance of considering health and wellbeing as part of everything we do.

In addition to the links with the Council Plan strategic objectives, Council's health and wellbeing action is guided by three broad wellbeing outcome areas. In light of the pandemic, effective social recovery and building community resilience are seen to be crucial components of our health and wellbeing responses over the next four years.

This approach is summarised in the diagram below, acknowledging the many influences on the health and wellbeing of the community.

Our Council Plan vision 2021-25

An inclusive, flourishing, progressive city that cares for both its residents and its environment.

Our Values

RESPECT	Inclusiveness, empathy, communication and goodwill
COURAGE	Innovation, considered risk, creativity, problem solving, initiative, accountability and responsibility
INTEGRITY	Honesty, loyalty, ethical behaviour and trustworthiness

Strategy Objectives

Council provides 60 services and 268 sub services to the community. Each contributes to the achievement of one of the five *Strategic Objectives* as set out in the Council Plan for the years 2021-25. The following table lists the five Strategic Objectives as described in the Council Plan.

Strategic Objectives	Description
Safe climate and healthy environment	Council will proactively identify opportunities to support a return to a safe climate and healthy environment and work with our community to respond to climate emergency challenges.
Liveable neighbourhoods	Council will partner with its community to provide and advocate for integrated built and natural environments with access to open spaces that are well maintained, accessible and respectful of the community and neighbourhoods.
A place for all	Council will provide well-planned neighbourhoods and a strong local economy delivering services that support wellbeing healthy and safe living, connection to the community, and cultural interaction.
Future focussed	Council will plan and advocate for new infrastructure and safe, sustainable and effective transport networks and a smart innovative city that encourages and supports new generations to thrive.
Ethical leadership	Council will proactively lead our changing City using strategic foresight, innovation, transparent decision-making and well-planned and effective collaboration to support economic growth during the ongoing challenges of the pandemic and beyond.

2.1. Financial Policy Statements

This section defines the policy statements, and associated measures, that demonstrates Council's financial sustainability to fund the aspirations of the Community Vision and the Council Plan.

Policy Statement	Measure	Target	Forecast Actual										
			2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31
1. Consistent underlying surplus results	Adjusted underlying result greater than \$0	\$0	-\$1,368	\$4,689	\$5,388	\$5,872	\$6,710	\$7,511	\$9,023	\$6,793	\$7,930	\$9,655	\$9,413
2. Ensure Council maintains sufficient working capital to meet its debt obligations as they fall due.	Current Assets / Current Liabilities greater than 1.25	1.25	4.14	3.64	3.29	3.34	3.18	3.07	3.01	2.95	2.9	2.88	2.82
3. Allocate adequate funds towards renewal capital in order to replace assets and infrastructure as they reach the end of their service life.	Asset renewal and upgrade expenses / Depreciation above 100%	100%	101.77%	146.19%	121.67%	165.09%	138.50%	117.97%	139.28%	133.61%	134.56%	120.78%	130.27%
4. That Council applies loan funding to new capital and	Total borrowings / Rate revenue	60%	0.00%	0.00%	7.99%	6.93%	5.92%	4.96%	4.03%	3.15%	2.31%	1.50%	0.73%

Policy Statement	Measure	Target	Forecast Actual										
			2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30	2030/31
maintains total borrowings in line with rate income and growth of the municipality.	to remain below 60%												
5. Council maintains sufficient unrestricted cash (per LGPRF definition) to ensure ongoing liquidity as well as to address unforeseen cash imposts if required.	Unrestricted cash / current liabilities to be maintained above 15% (LGPR indicator)	15%	200.24%	183.26%	158.55%	138.85%	103.04%	114.61%	92.51%	76.79%	79.52%	85.33%	94.42%
6. Council generates sufficient revenue from rates plus fees and charges to ensure a consistent funding for new and renewal capital.	Capital Outlays as a % of Own Source Revenue to remain above 25%	25%	20.8%	33.0%	37.9%	27.3%	28.7%	28.2%	27.5%	27.3%	27.0%	27.0%	26.9%

Policy Statement	Measure	Target	Forecast										
			Actual	2020/21	2021/22	2022/23	2023/24	2024/25	2025/26	2026/27	2027/28	2028/29	2029/30
7. Rates and municipal charge dedicated to capital and asset improvements (excludes external grants, contributions, borrowings and reserves)	Capital and asset improvement 28 per cent of Rates and Municipal Charges	28%	25.59%	29.14%	28.43%	27.63%	29.09%	30.71%	33.02%	32.06%	31.71%	31.55%	32.71%

2.2. Strategic Actions

The strategic actions are included to the 10-year financial plan and, where appropriate, referenced in the commentary associated with the 10-year Comprehensive Income Statement and the 10-year Statement of Capital Works.

Some of Council's key strategic actions include:

- Set rate increases in accordance with the *Fair Go Rates* framework and Revenue and Rating Plan.
- Identify efficiency gains in the operating budget to promote achievement of a financially sustainable operating surplus in a rate cap environment.
- Ensure service users make a reasonable contribution to the cost of services through appropriate fees and charges consistent with adopted pricing strategies and principles within the Revenue and Rating Plan.
- Seek alternative revenue streams and external funding opportunities to reduce over reliance on rate revenue.
- Apply a best value service/supply contract pricing approach to achieve quality and cost effective inputs to the delivery of Council services to the community.
- Increase investment in renewal capital to reduce the increasing risk and maintenance of aging infrastructure.
- Allocate additional funding towards addressing climate change.
- Apply new debt funding to growth infrastructure where necessary and based on a sound business case and demonstrated community benefit.
- Maintain current service levels for the next four years to enable Council sufficient time to complete a full review of its service delivery programs.

2.3. Assumptions to the financial plan statements

This section presents information regarding the assumptions to the Comprehensive Income Statement for the 10 years from 2021/22 to 2030/31. The assumptions comprise the annual escalations / movement for each line item of the Comprehensive Income Statement.

The following table shows the description and annual escalations for each income and expenditure line item contained in the Comprehensive Income Statement for the 10-year period. Further information regarding the revenue sources is available in Revenue and Rating Plan. The annual escalations are based on research and information across various sources, mainly Australian Bureau of Statistics, Victorian Department of Treasury and Finance, State government budget, Forecast Id data, and general economic updates across the sector.

NOTES*												
CIP -denotes City Infrastructure Plan												

2.3.1. Rates and Charges

The Victorian Government introduced rate capping from 2016 as a part of the *Fair Go Rates* system, requiring all Local Councils to limit their annual the rate cap applies to general rate and municipal charges. It does not apply to waste charges or the State's fire services property levy. The rate cap for 2021/22 has been set at 1.5% as approved by Minister for Local Government, in comparison to 2% prescribed for 2020/21. Financial plan forecasts are based on Council complying with expected rate cap, annual rate increase for future years is aligned with expected future years Consumer Price Index (CPI) growth and wage price index. The actual rate cap is announced by the Minister for Local Government in December of the preceding year of the budget. In addition, it is expected that an additional \$1.0m per annum will be driven by growth (additional properties) through receipt of supplementary rates. An increase of 1,200 dwellings every year is factored to reflect the expected growth and development across the municipality. Further information about rating principles can be found in Council's Revenue and Rating Plan 2021-25. Waste charges are based on the actual cost of delivering the waste service, it's based on a cost recovery principle.

Future years' waste charges are estimated to increase in line with the CPI % increase to ensure Council continues to recover the full costs of providing waste services. Waste service charge includes expected tonnages of waste collected, increase in State Government landfill levy coming in place from July 2021 resulting in significant increase, general contract increase allowed for CPI and growth, also includes waste education and incentives as a part of future waste collection and disposal in the future. Residents may vary the waste service they receive and be charged according to the services they use and size of their bins.

2.3.2. Statutory Fees and Fines

The Financial Plan indexes statutory fees, set by legislation, according on the estimated annual rate of CPI. This is often a best case scenario given some fees are outside of the control by Council and therefore may be subject to increases less than CPI.

2.3.3. User Fees

User fees and charges are those that Council will charge for the delivery of services and use of community infrastructure. The provision of infrastructure and services form a key part of Council's role in supporting the local community. In providing these, Council must consider a range of 'Best Value' principles including service cost and quality standards, value-for-money, and community expectations and values. Council must also balance the affordability and accessibility of infrastructure and services with its financial capacity and in the interests of long-term financial sustainability. Councils must also comply with the Government's Competitive Neutrality Policy for significant business activities they provide and adjust their service prices to neutralise any competitive advantages when competing with the private sector.

In providing services to the community, council must determine the extent of cost recovery for particular services consistent with the level of both individual and collective benefit that the services provide and in line with the community's expectations.

Services are provided on the basis of one of the following pricing methods:

- a. Market Price
- b. Full Cost Recovery Price
- c. Subsidised Price

Revenue increase for user fees and charges for ten years is in line with CPI increase.

2.3.4. Grants

Council receives various grant funding and recognises the importance of actively pursuing grant funding to deliver significant projects and services to the community. Operating grants are expected to increase in line with CPI increase for future years.

Council only allows for confirmed capital grant funding in budget allocations. Capital grants are essential for council to deliver projects that will have intergenerational benefits.

2.3.5. Contributions

Council receives contributions from developers. These contributions represent funds to enable Council to provide the necessary infrastructure and infrastructure improvements to accommodate development growth. The contributions are for specific purposes and often require Council to outlay funds for infrastructure works often before receipt of this income source. These contributions are statutory contributions and are transferred to a restricted reserve until utilised for a specific purpose through the capital works program or delivered as works in kind by developers.

Contributions Plan

Council has in the past derived cash revenues from property developers in the form of open space contributions. These are based on 5.7% of the value of proposed developments. These are levied and collected through the planning process. In addition, there exists (under section 46 of the Planning and Environment Act 1987) the capacity for Council to consider city-wide and precinct-based development contributions plans for infrastructure. The objective of such plans would be to partially recoup the costs of Council's community and development infrastructure associated with dwelling and/or floor space growth, which springs from new land developments (i.e. over and above the cost of open space) through the planning and building permit processes. This Financial Plan acknowledges that a city-wide Development Contributions Plan (DCP) for the City of Maribyrnong was developed in 2018/19 and 2019/20. Once the DCP has been included in the Maribyrnong Planning Scheme, funds generated by this plan will be collected.

City wide Development Contribution Plan

This Financial Plan also gives the City of Maribyrnong's longer-term community and development infrastructure commitments for a 20 year delivery horizon. These commitments will be periodically reviewed and reflect Council's intention to fund infrastructure projects and programs which are needed to support dwelling and/or floor space growth in the City. The list of committed longer-term projects is in Appendix A. These projects will be considered for the city wide DCP.

The Appendix A list has been prepared in-light of relevant legislation, ministerial directions and government guidelines for DCPs. The final list of projects for the city wide DCP will also come from Council's annual budget commitments and Strategic Resource Plan, and will be included in a Council endorsed DCP.

2.3.6. Other Income

Revenue from other income mainly comprises recovery income from a variety of sources and rental income received from the hire of Council buildings and facilities.

2.3.7. Employee Costs

Employee costs is one of the largest expenditure for council to support the community and meet organisation commitments. Employee costs constitute a combination of direct wages and salaries, including on-costs such as superannuation, WorkCover, leave entitlements, training and temporary staff arrangements.

The 2021/22 year includes a 2.25% increase for the wages and salaries component of employee costs that mainly reflects salary increase, banding movement for all staff pursuant to the Enterprise Bargaining Agreement and increased staff resources for the Organisation increase in service levels with changes in demographics. Additional growth in staff movement is assumed for 2026/27 to 2030/31 for delivery of council services as the organisation services continues to grow.

The 2021/22 increase in employee costs mainly reflects the:

Impact of unfilled vacancies across Council in 2020/21. The budget for 2021/22 is based on the assumption that every position will be filled throughout the year and Council will not have any savings derived from vacancies.

Current Enterprise Bargaining Agreement (EBA) increase in 2021/22 at an increment of 2.25%. Please note that new EBA negotiations will commence in 2021/22 financial year and this assumption may need to be revisited.

Increase in the Superannuation Guarantee (SG) from 9.5% in 2020/21 to 10% in 2021/22. The new superannuation guarantee rules effective from July 2021 will increase the SG rate to 10% pa, with progressive increases thereafter to 12% pa by 2025/26.

2.3.8. Materials and Services

Materials costs include items required for the maintenance and repairs of Council buildings, roads, drains and footpaths which are more governed by market forces based on availability than CPI. The cost of council maintenance contracts for parks and gardens are expected to exceed CPI due to continuing growth in new council assets, and the cost of raw materials like concrete, asphalt and other road base items continue to exceed CPI. These external influences are driving the long term forecasts for this budget cost item.

Council also utilises external expertise on a range of matters, including legal services and audit, and outsource large contracts such as waste management which on aggregate are expected to grow as our municipality grows. This is due to increased tonnage and the anticipated increase in landfill levy, with the new State government levy from July 2021 to increase contractual costs for landfill charges.

Other associated costs included under this category are utilities, materials, and consumable items for a range of services. Council also utilises external expertise on a range of matters, including insurance, legal and consulting services. These costs are kept to within CPI levels year on year.

2.3.9. Depreciation and Amortisation

Depreciation estimates have been based on the projected capital spending contained within this 10-year Financial Plan. Depreciation is further increased by the indexation of the replacement cost of Council's fixed assets and Council's continued receipt of donated assets.

2.3.10. Borrowing Costs

Borrowing costs comprise the interest expense to service Council's loan portfolio that is described in Section 5.1 Borrowing Plan.

2.3.11. Other Expenses

Other expenses include administration costs such as Councillor allowances, election costs, court charges, lease expenditure, audit costs and other costs associated with the day to day running of Council.

2.4. Other Matters Impacting the 10-Year Financial Projections

Council continues to face challenges, which may impact future events likely to impact the Financial Plan projections. Some of the main factors that may impact the 10-year financial projections are:

Lower Rate Environment

The overall financial impact of the lower rate environment has lead Council to review it services and capital works program and to source alternative funding.

New Local Government Act 2020

The requirement for Asset Management Planning will be better informed by new deliberative community engagement. A possible re-defining of service demand and service levels in respect of community assets and infrastructure may increase asset maintenance and renewal expenditure.

COVID-19 Impact

As the economy recovers from this pandemic, our community will continue to recover from these challenges. Council will continue to support the community and businesses where possible and provide assistance. We are learning different ways of working and making council facilities more akin to provide hybrid work environment and more services to move electronically. Our innovative ways of working and advance IT infrastructure supported us to work through the pandemic and we will need to continue to build our IT infrastructure to grow the organisation.

Cost Shifting

This occurs where Local Government provides a service to the community on behalf of the State or Federal Government. Over time the funds received by Local Governments do not increase in line with real Cost increases. An example of this is Maternal & Child Health, where the level of payment received by Council from the State Government does not reflect the real Cost of providing the service to the community. Council still plays a role in maintaining crown land reserves and has some exposure to infrastructure owned by other State authorities.

Public Infrastructure Maintenance:

Councils are entrusted with the maintenance of public assets including roads, bridges, parks, footpaths and public buildings. This means that a large proportion of Council's income must be allocated to the maintenance and replacement of these valuable public assets in order to ensure the quality of public infrastructure is maintained at satisfactory levels.

What Council Is Doing To Address Revenue Constraints

- Council officers are continually looking at ways to operate more efficiently and finding costs savings.
- Council is investing in information technology to improve the efficiency of services to its growing community, which enables greater levels of productivity across Council staff and service providers.
- Council is also progressively reviewing all of its key services to ensure that the community is receiving value for money.
- Council regularly reviews its services in detail to ensure that it is operating efficiently and delivering the services required by the community.
- Council is constantly looking for additional grant funding from the Federal and State Governments to fund infrastructure.
- Council reviews its fees and charges to reduce the reliance on rates (which is shared by all property owners).

3. Financial Plan Statements

This section presents information in regard to the following Financial Plan Statements for the 10 years from 2021/22 to 2030/31.

- Comprehensive Income Statement
- Balance Sheet
- Statement of Cash Flows
- Statement of Capital Works
- Statement of Human Resources
- Statement of Changes in Equity

4. Financial Performance Indicators

The following table highlights Council's projected performance across a range of key financial performance indicators. These indicators provide an analysis of Council's 10 year financial projections and should be interpreted in the context of the organisation's objectives and financial management principles.

Measure		Actual 2019/20	Forecast 2020/21	Budget 2021/22	2022/23	2023/24	2024/25	2025/26	Projections				
									2026/27	2027/28	2028/29	2029/30	2030/31
Operating position													
Adjusted underlying result	Adjusted underlying surplus (deficit) / Adjusted underlying revenue	-0.30%	-1.03%	3.24%	3.61%	3.84%	4.29%	4.70%	5.51%	4.05%	4.62%	5.50%	5.24%

4.1. Notes to Indicators

Adjusted Underlying Result

An indicator of the sustainable operating result required to enable Council to continue to provide core services and meet its objectives. Improvement in financial performance expected over the period, although continued losses means reliance on Council's cash reserves or increased debt to maintain services.

Working Capital

The proportion of current liabilities represented by current assets. The trend in later years is to remain steady at an acceptable level.

Debt Compared To Rates

Trend indicates that borrowings are required to fund future city infrastructure projects.

Asset Renewal and Upgrade

This percentage indicates the extent of Council's renewals against its depreciation charge (an indication of the decline in value of its existing capital assets). A percentage greater than 100 indicates Council is maintaining its existing assets, while a percentage less than 100 means its assets are deteriorating faster than they are being renewed and future capital expenditure will be required to renew assets.

Rates Concentration

Reflects extent of reliance on rate revenues to fund all of Council's on-going services. Trend indicates Council will become more reliant on rate revenue compared to all other revenue sources.

5. Strategies and Plans

This section describes the strategies and plans that support the 10 year financial projections included to the Financial Plan.

5.1. Borrowing Strategy

5.1.1. Current Debt Position

Whilst not a source of income, borrowings can be an important cash management tool in appropriate circumstances. Loans can only be approved by council resolution. The following financial sustainability principles must be adhered to with new borrowings:

- Borrowings must only be applied for where it can be proven that repayments can be met in the Long Term Financial Plan
- Borrowings must not be used to fund ongoing operations
- Borrowings are appropriate for funding large capital works where the benefits are provided to future generations.
- Council will maintain its debt at levels which are sustainable, with:
 - indebtedness <60% of rate and charges revenue, and
 - debt servicing cost <5% of total revenue (excluding capital revenue).

There are no borrowings included in the 2021/2022 budget and therefore, after making loan principle repayments of \$2.67 million in July 2016 reduced its total borrowings to \$0.

5.1.2. Future Borrowing Requirements

The following table sets out future Adopted borrowings, based on the financial position of Council as at 30 June 2021. In developing the 10 years Financial Plan, borrowings was identified as an important funding source for capital works programs.

It is likely that in future years, borrowings will be required to fund future Capital projects.

The following table sets out future proposed borrowings, based on the forecast financial position of Council as at 30 June 2031.

Year	New Borrowings \$'000	Principal Paid \$'000	Interest Paid \$'000	Balance 30 June \$'000
2020/21	-	-	-	-
2021/22	-	-	-	-
2022/23	10,000	980	44	9,020
2023/24	-	985	40	8,035
2024/25	-	989	35	7,046
2025/26	-	993	31	6,053
2026/27	-	998	27	5,055
2027/28	-	1,002	22	4,053
2028/29	-	1,007	18	3,046
2029/30	-	1,011	13	2,035
2030/31	-	1,015	9	1,020

5.1.3. Borrowing Performance Indicators

The following table highlights Council's projected performance across a range of debt management performance indicators.

Performance Indicator	Target	Forecast / Actual 2020/21 %	2021/22 %	2022/23 %	2023/24 %	2024/25 %	2025/26 %	2026/27 %	2027/28 %	2028/29 %	2029/30 %	2030/31 %
Total borrowings / Rate revenue	Below 60%	0.00%	0.00%	7.99%	6.93%	5.92%	4.96%	4.03%	3.15%	2.31%	1.50%	0.73%
Debt servicing / Rate revenue	Below 5%	0.00%	0.00%	0.91%	0.88%	0.86%	0.84%	0.82%	0.80%	0.78%	0.76%	0.74%
Indebtedness / Own source revenue	Below 60%	1.51%	1.35%	6.99%	6.09%	5.23%	4.97%	4.13%	3.89%	3.10%	2.34%	1.60%

Council maintains its loan borrowing within prudent and management limits as demonstrated by the following performance indicators.

Total Borrowings / Rate Revenue

Loans balance is well within the target level of 60% to meet council targets over the ten year period.

Debt Servicing / Rate Revenue

Debt servicing (interest repayments) as a percentage of rates revenue should not exceed 5 per cent, ten year ratios are well within council target and improving over the ten years.

Indebtedness / Own Source Revenue

Comparison of non-current liabilities (mainly comprising borrowings) to own-sourced revenue. The higher % identifies council risk to cover non-current liabilities from the revenues the organisation generates itself. Own source revenue excludes grants and contributions. Council is within its 60% target over the life of the plan.

5.2. Reserves Strategy

5.2.1. Current Reserves

Non-Discretionary Reserves

Development Contributions

When people develop land for any use, they often contribute to or cause the need for new or upgraded infrastructure. Development contributions are payments or works-in-kind towards the provision of infrastructure made by the proponent of a new development. The development contributions plan outlines the levies landowners and developers must pay to the State Government and council to fund infrastructure and facilities for the new community.

A development contributions plan (DCP) is a mechanism used to levy new development for contributions to planned infrastructure needed by the future community. Council collects development contribution levies from new development through an approved DCP. An approved DCP is a DCP that forms part of a planning scheme. The Minister for Planning has to approve an amendment to the planning scheme in order to incorporate a DCP. The DCP will assist Council to fund a range of new vital local infrastructure that is associated with new development. Council will fund the balance of the cost. The DCP will be used to fund essential infrastructure including:

- Roads
- Drainage
- Footpaths
- Streetscape works
- Childcare centres
- Maternal and Child Health Centres
- Neighbourhood houses.

City Wide Development Contribution Plan

This LTFS also gives the City of Maribyrnong's longer-term community and development infrastructure commitments for a 20 year delivery horizon. These commitments will be periodically reviewed and reflect Council's intention to fund infrastructure projects and programs which are needed to support dwelling and/or floor space growth in the City. The list of committed longer-term projects is in Appendix A. These projects will be considered for the city wide DCP.

The Appendix A list has been prepared in-light of relevant legislation, ministerial directions and government guidelines for DCPs. The final list of projects for the city wide DCP will also come from Council's annual budget commitments and Strategic Resource Plan, and will be included in a Council endorsed DCP.

Restricted Reserves

Public Open Space

The Public Open Space is mainly concerned with the land that is managed by Council for community recreation and leisure, and includes parks for passive recreation, sports and active activities, linear trails, and more natural areas.

With the expected significant growth and change, it is essential that high quality open space is accessible not just for existing residents, but also for the many new residents who will be living in the Shire. To ensure that there are adequate parks and gardens for our community, Council has to plan for our future public open space needs and the ongoing enhancement of these treasured community assets.

Community Infrastructure Levies (CIL)

The Community Infrastructure Levy is a one-off payment set by the State Government under the requirements of the Planning and Environment Act 1987. It is a levy paid by property owners in residential developments/estates in growth areas. Council is responsible for delivering new facilities funded by the levy.

Each growth area precinct has different and unique infrastructure requirements. The Development Contributions Plan (DCP) sets out which CIL payments fund which infrastructure projects for that growth area. A CIL will pay for sporting pavilions, recreation facilities, and community facilities (as detailed in the relevant DCP).

Discretionary Reserves

Major Projects and Other Reserves

Council has also set up some discretionary reserves for Major Projects, Plant Replacement Reserve, Mausoleum Trust, Carry Forward Reserve and a Defined Benefit Super Shortfall Reserve. This will allow the organisation to future proof itself and have resources available to support the community during a crisis.

5.2.2. Reserve Usage Projections

10 Year projection of each reserve fund. Include restrictions to usage

Reserves	Restricted / Discretionary	2020-21 \$000's	2021-22 \$000's	2022-23 \$000's	2023-24 \$000's	2024-25 \$000's	2025-26 \$000's	2026-27 \$000's	2027-28 \$000's	2028-29 \$000's	2029-30 \$000's	2030-31 \$000's

6. Appendix A

6.1. DCP Projects

Location	DCP Project Name	TOTAL DCP COST ESTIMATE (Total Project Cost - Grants - Contributions - Open Space Reserve)
Kingsville	Kingsville Tennis Facility, West Footscray - new pavilion	\$1,216,000
West Footscray	Church Street Early Years Facility, West Meadows - facility works	\$3,650,000
Footscray	Footscray Park, Footscray - open space works	\$700,000
Yarraville	Angliss Reserve, Yarraville - open space works	\$100,000
Maidstone	Maribyrnong River Trail – Medway Link	\$600,000
Footscray	Quarry Park, Footscray - open space works	\$3,894,000
Footscray	Hopkins Street (under bridge), Footscray - new recreation space	\$400,000
Footscray	Town Hall building, Footscray - new community facility	\$3,800,000
Maribyrnong	Robert Barrett Reserve, Maribyrnong - sports field works	\$400,000
Footscray	Footscray Hockey Facility - pavilion works	\$1,200,000
Maidstone	Rogers Reserve, Maidstone - playground works	\$200,000
Kingsville	Kingsville Early Years Facility, Kingsville - outdoor area works	\$100,000
Footscray	Angliss Early Years Facility - outdoor area works	\$100,000
Kingsville	Kingsville Tennis Facility, West Footscray - floodlight works	\$150,000
Yarraville	Mclvor Reserve (Hanks), Yarraville - floodlight works	\$150,000
Maribyrnong	Burndap Reserve, Maribyrnong - open space works	\$150,000
Footscray	Footscray Park, Footscray - irrigation works	\$507,000
Maribyrnong	Jacks Wood Reserve, Maribyrnong - open space works	\$121,000
Maribyrnong	Robert Barrett Reserve, Maribyrnong - open space works	\$157,300
Maidstone	Rogers Reserve, Maidstone - irrigation works	\$193,100
Yarraville	Yarraville Gardens, Yarraville - open space works	\$250,000
Braybrook	Kinder Smith Reserve, Braybrook - cricket net works	\$150,000
Maidstone	Scovell Reserve, Maidstone - cricket wicket works	\$110,000
Braybrook	Skinner Reserve (Braybrook Park), Braybrook - cricket net works	\$150,000
Yarraville	Hanmer Reserve, Yarraville - irrigation works	\$110,000
Yarraville	Angliss Reserve, Yarraville - fence works	\$115,000
Yarraville	Schild Street (Stephen to Hyde), Yarraville - road works	\$200,000
West Footscray	Argyle Street (Barkly to Essex), West Footscray - road works	\$752,471
Maidstone	Burns Street (44 Burns to Thomson), Maidstone - road works	\$234,471
West Footscray	Rupert Street (Neil to Alberta), West Footscray - road works	\$280,000
Seddon	William Street (Charles to Pilgrim), Seddon - road works	\$176,000
Seddon	Pilgrim Street (John to Margaret), Seddon - road works	\$138,000
Maidstone	Cambridge Street (Mitchell to Desmond), Maidstone - road works	\$560,471
Braybrook	Hotham Street (Pritchard to Kent), Braybrook - road works	\$496,471
West Footscray	Hex Street (Cala to Bizana), West Footscray - road works	\$389,471
West Footscray	Fontein Street (Cala to Bizana), West Footscray - road works	\$395,471
West Footscray	Hex Street (Bizana to Aliwal), West Footscray, road works	\$386,471
West Footscray	Fontein Street (Bizana to Aliwal), West Footscray - road works	\$394,471
Braybrook	Stewart Street (Turner to Pritchard), Braybrook - road works	\$388,471
Braybrook	Turner Crescent (near Beachley), Braybrook - road works	\$224,471

Location	DCP Project Name	TOTAL DCP COST ESTIMATE (Total Project Cost - Grants - Contributions - Open Space Reserve)
Braybrook	Churchill Place, Braybrook - road works	\$115,471
Maribymong	Maribymong Aquatic Centre, Maribymong - facility works	\$300,000
Yarraville	Angliss Reserve, Yarraville - floodlight works	\$240,000
Footscray	Cowper Street (Harris to Lyons), Footscray - road works	\$3,534,000
Yarraville	Cruickshank Park, Yarraville - open space works	\$201,000
Footscray	Footscray Activity Centre, central Footscray - pedestrian priority works	\$160,000
Footscray	Footscray Activity Centre, Barkly Street - streetscape works	\$100,000
Footscray	Footscray Activity Centre, Bunbury Street - streetscape works	\$2,443,000
Footscray	Footscray Activity Centre, Buckley Street - pedestrian priority works	\$609,000
Footscray	Footscray Activity Centre, central Footscray - pedestrian priority works	\$420,000
Footscray	Grimes Reserve, Footscray - open space works	\$600,000
West Footscray	Hansen Reserve, West Footscray - pavilion works	\$4,190,000
West Footscray	Hansen Reserve, West Footscray - open space works	\$1,300,000
Seddon	Harris Reserve, Seddon - playground works	\$100,000
Footscray	Henry Turner North Reserve, Footscray - pavilion works	\$154,000
Footscray	Henry Turner South Reserve, Footscray - new pavilion	\$884,000
Braybrook	Kinder Smith Reserve, Braybrook - floodlight works	\$124,000
Seddon	Mappin Reserve, Seddon - playground works	\$100,000
Yarraville	Norfolk Street Early Years Facility, Braybrook - facility works	\$1,950,000
Braybrook	Pennell Reserve, Braybrook - open space works	\$908,000
Braybrook	Pennell Reserve, Braybrook - pavilion works	\$2,600,000
Maidstone	Scovell Reserve, Maidstone - new pavilion	\$2,850,000
West Footscray	Stony Creek (near Cala Street), West Footscray - new bridge	\$320,000
West Footscray	Stony Creek (Waratah to Roberts), West Footscray - new path	\$275,000
Footscray	Maribymong River, Footscray - river edge works	\$6,000,000
Multiple Locations	Bicycle and Pedestrian - municipal network works program	\$11,000,000
Maribymong	Maribymong River Trail, Burndap Lake - path works	\$425,000
Footscray	Maribymong River Trail, Footscray Park - path works	\$365,000
Footscray + Maribymong	Maribymong River Trail - lighting works	\$750,000
Multiple Locations	Street Tree Planting & Urban Forest Strategy - municipal tree planting program	\$8,724,000
West Footscray	West Footscray Activity Centre, Clarke and Barkly intersection - new open space	\$150,000
Yarraville	Yarraville Activity Centre, Yarraville - pedestrian priority works	\$454,000
Footscray	Hyde Street Community Facility, Footscray - facility works	\$103,000
Footscray	Brenbeal Early Years Facility, Footscray - facility works	\$3,000,000
